

TRIAD Safety Survey Information Sheet

Overview

TRIAD is a national organization of law enforcement, senior citizens and local businesses working together to reduce senior victimization and enhance the delivery of law enforcement services to older persons. Currently 47 states are involved in this program. In Enfield, the town's fire departments are involved to address fire and safety issues.

The Enfield Senior Center along with the Enfield Community Police Department requested the Information Technology Department create an [on-line survey](#) for the Enfield web site. The TRIAD Safety Survey serves the public interest and is designed to collect information about safety concerns, ideas to improve safety, and contact information from individuals willing to volunteer with Enfield's TRIAD program.

The IT Department was able to bring the TRIAD Safety Survey into production due to the coordinated effort of the Webmaster, Technical staff, Senior Center Director, and the Enfield Police Department's TRIAD Liaison.

Highlights

- Survey to encourage seniors to give input and volunteer to improve safety in Enfield
- Integration of web and e-mail technologies create a flexible communication strategy
- Connecting senior citizens with local law enforcement, fire departments and local businesses
- Survey questions include:
 - What are your top three concerns regarding safety in Enfield?
 - Name three things the Enfield Police or Fire Department need to be aware of
 - Name three ideas to make Enfield a safer place
 - Would you be willing to volunteer to get involved with Enfield's TRIAD?

Interaction with Other Systems

- Each completed survey is e-mailed directly to designated TRIAD contacts for review and response
